From the statistics given it will be seen that the number of pupils in the 4th and 5th Forms has been steadily increasing. There is also a very gratifying increase in the number studying History, Geography and Composition. The provision in the regulations of 1885, whereby Canadian history was made compulsory for entrance to the High Schools, has led no doubt to a better knowledge of these great events which affect the destiny of the Dominion, which cannot fail, on account of their importance, to be stimulating to the patriotism of all pupils attending the schools of the Province.

Temperance and Hygiene.

It is also worthy of notice that the number of pupils receiving instruction in Temperance and Hygiene has increased from 33,926 in 1882, to 202,434 in 1896. Having regard to the great importance of the knowledge of physiology and the injurious effects of alcoholic stimulants on the human system, provision was made by statute in 1886 for placing this subject on the course of study for Public Schools. Instruction was also provided under departmental regulation for teachers-in-training at County Model Schools and Normal Schools, to be followed by an examination as an essential pre-requisite to their final recognition as duly qualified teachers. In 1893, this subject was made compulsory for entrance to High Schools and Collegiate Institutes, so that no pupil who pursues his studies as far as the 5th Form can fail to be reasonably well acquainted with the conditions on which his health and physical vigor depend, as well as with the dangerous tendency of stimulants and narcotics to produce weakness and disease.

Kindergartens.

The system of Kindergarten instruction, first introduced into Ontario in 1882, and subsequently made part of the School System of the province, by the Public Schools Act of 1885, has met with encouraging success. A report of the pupils receiving instruction in this way was first made in 1892. This report showed that in the short space of ten years, 66 Kindergartens were established, with 160 teachers, attended by 6,375 children under 6 years of age. In 1896 the number of Kindergartens had increased to 97, with 202 teachers, attended by 10,174 pupils under 6 years of age.

Night Schools

The whole number of Night Schools aided in 1896 was 21, the number of teachers 41, and the number in attendance 1,349. This number does not include the attendance upon the classes established by Mechanics' Institutes and Art Schools.

Classification.

From a study of the classification of High Schools and Collegiate Institutes, two or three very striking changes in the tendency of higher education may be worthy of notice. For instance, in 1867, only 1,283 pupils or 23 per cent. of the whole number studied commercial subjects such as Bookkeeping; in 1896 this subject was taken by 13,068 pupils or 53 per cent. of the whole attendance. In 1867, 5,171 pupil or 90 per cent. of the whole attendance studied Latin; in 1896 the number of pupils in Latin was 15,526, about 63 per cent. of the number in attendance. In 1867, 15 per cent. studied Greek; in 1896 only 6 per cent. were engaged in studying this subject. In 1867, 38 per cent. of pupils studied French and none studied German; in 1896 these numbers had increased to 55 per cent. and 18 per cent. respectively. There also has been a large increase in the number studying Drawing; the total in 1867 being 676, and in 1896 13,468. Vocal Music is taught in 5 schools.

Diffusion of High School Education.

When the High School System of the Province was first inaugurated, its primary object was to prepare pupils for the learned professions and especially for the University. While in that respect our High Schools amply fulfil their original purpose, in later years the course of education which they provide has been considered a desirable qualification for various other pursuits in life. Many young men in preparing for mercantile life or for agriculture take advantage of the High School, perhaps not so much because of the direct training which it gives for their intended calling as for the superior culture which it provides. In 1872, 486 High School pupils, when they finished their High School education, entered mercantile life. In 1896 the number had increased to 1,325. Similarly, 300 High School pupils left the High School for agricultural pursuits, and in 1896, 1,139 pupils pursued a similar course. In all, the High Schools gave to mercantile life and to agriculture in 1896 2,464 pupils of well-recognized educational standing, and to the Universities and learned professions the same year, 959. The whole number who left the High School for mercantile life since 1872 was 21,235, and for agriculture, 16,737.

VI.—TECHNICAL EDUCATION.—PUBLIC AND FREE LIBRARIES, ART SCHOOLS AND SCIENTIFIC INSTITUTIONS, ETC

The Act of April, 1895, changing the name of Mechanics' Institutes to Public Libraries and empowering the Directors of Mechanics' Institutes, in cities, towns and incorporated villages, to transfer Libraries and Reading Rooms to Municipal Councils, has been very successful.

I directed the Superintendent, when inspecting Libraries, to encourage the establishment of Free Libraries throughout the Province to show that the liberal grants from the Legislature for Libraries are from the people's money, and that the people should have the advantages derived from it, that it is as much my duty to provide education for young people after they leave school, as it is to provide education for them as pupils in our schools; also, to refer to the prosperity of manufacturers in Europe and the United States where Free Libraries have been established and young people can obtain books relating to their various occupations free of charge; that my efforts in this direction have been successful is shown by the annexed tabular statement.

In 1883 we had only 12 Free Libraries and now we have 78 Free Libraries, and several other Public Libraries will be Free after the 1st of January, 1898.

The following abstracts show the progress that has been made in disseminating literature by means of Public Libraries throughout our Province during the past fourteen years.

In 1883, 93 Mechanics' Institutes and Free Libraries reported; in 1897, 323 Libraries reported; 37 Libraries have not yet sent in their reports, and 8 new Libraries have been incorporated since 1st May, 1897. Total 368.

In 1883, 251,920 volumes were issued; in 1897, 2,157,965 volumes were issued, and the assets have increased from \$255,190 to \$844,692.37.

During the past fourteen years (1883 to 1897) the total number of volumes issued in Mechanics' Institutes and Free Libraries was 13,938,893, and the amount expended during that period for library purposes was \$1,728,658. During the past fourteen years we have also made great progress in Art Education, 170 gold, silver and bronze medals have been awarded, together with 2,630 Full Teachers' and 54,265 Proficiency Certificates in the various branches of Art Education.

IX.—GOVERNMENT GRANTS TO EDUCATION.

The gross amount expended by the Education Department for all educational purposes since 1867 was \$15,114,503. Of this sum \$7,372,804 were divided among the public, separate and other schools, to meet the annual expenditure for teachers' salaries and other purposes; \$2,722,435 were spent for the training and examination of teachers of Public Schools, at Normal Schools, County Model Schools and Teachers' Institutes and for the inspection of schools; \$2,492,564 were paid directly for the support of High Schools, and \$220,277 indirectly for the benefit of High Schools in the way of inspection and the training of High School teachers; \$1,246,611 were paid to superannuated teachers, and \$1,059,812 were paid in aid of technical education. Owing to the liberality of the Legislature, there has been a steady increase in the grant made for education during the last 25 years.

XII.—ARBOR DAY.

The efforts made by the Department to secure the planting of shade trees and the cultivation of flowers in the school grounds, were heartily supported by teachers and trustees. Arbor day has now become one of the most interesting and profitable holidays of the year. Since 1885, 254,122 trees have been planted, 15,337 of these in 1896.

I have the honor to be,

Your Honor's obedient servant

III. CIRCULARS FROM THE MINISTER.

INSTRUCTIONS TO HIGH SCHOOL INSPECTORS WITH RESPECT TO THE GRADING OF HIGH SCHOOLS.

School accommodation shall be considered as divided into four grades, according to the character and extent of the premises, school buildings and their equipment. Where, in Schools already erected, any part of the accommodations is used jointly by the High and Public Schools, the grading shall be one degree lower than if the Schools were separate. In determining the grades, the officers of the Education Department shall have regard to the following considerations :—

(1) *School Premises and Water Supply.*—The school premises shall be not less than one acre in extent, easily accessible, not exposed to disturbing noises, and exclusively devoted to High School purposes. The grounds shall be properly levelled and drained and ornamented with trees, shrubs and flower beds ; they shall be enclosed with a suitable fence, shall have separate entrances, recreation grounds, and walks for the sexes. The recreation grounds for the sexes shall be separated by a close board fence, wall or hedge. Provision shall be made for keeping the premises and grounds in good order. There shall be a well in the school premises properly protected against pollution, where there is no other source of water supply. Grades I and II shall be given only when the water supply is inside the building.

(2) *Closets.*—The closets for the sexes shall be under separate roofs several feet apart, and properly screened from observation. Each closet shall contain four compartments, each provided with a door, for the first fifty pupils in attendance, and one for each additional fifty pupils. The boys' closet shall be built of glazed brick or similar material ; or of wood, painted a dark color and sanded. Urinals, of slate or similar material, divided into compartments and properly situated, shall be provided for the boys, and separate and locked closets for the teachers. The closets and urinals shall be cleansed and disinfected at suitable intervals. Covered walks shall be laid from the door of the school building to the closets. A close, high board fence or wall shall be provided between the boys' and girls' side, from the closets to the school building, and the entrances to the closets shall be properly screened. In the case of Union Schools, the closets for High School pupils shall be separate from the closets for Public School pupils. Where the closets are inside the building the above conditions shall apply *mutatis mutandis*.

(3) *School Building.*—The grading of the school building shall depend upon the site and the architectural appearance. In every school building there shall be separate entrances for the sexes with covered porches, and separate means of egress at the rear to the recreation grounds and closets. The High School building shall be separate from the Public School building, and at least thirty feet distant from the public highway.

(4) *Class-Rooms.*—The class-rooms shall be conveniently arranged, well proportioned and oblong in shape. The ceiling shall be white, the walls a French gray or a light stone color, and the floors in good order. A superficial area of 12 square feet and a cubic air space of 250 feet shall be allowed for each pupil. In three-master schools or over, at least one separate class-room shall be provided for science teaching ; in two-master schools one of the ordinary class-rooms may be used for this purpose, and in the larger schools the laboratories for Chemistry and Physics shall be separate. There shall be a hall or a class-room in which all the pupils can assemble. A movable fan-light shall be placed over each class-room door.

(5) *Teachers' Private Rooms.*—There shall be at least one room for the private use of the teaching staff, of suitable size and comfortably furnished. Where the teaching staff is large, there shall be two or more private rooms, one of which shall be assigned for the accommodation of the female teachers.

(6) *Halls, Waiting Rooms, and Cap Rooms.*—The halls shall be of suitable size, well lighted, and shall be so placed as to admit of separate entrances for the sexes to the waiting rooms, cap-rooms and class-rooms. The waiting-rooms and cap-rooms for the sexes shall be conveniently situated with respect to the class-rooms and furnished with seats, lavatories, water taps or tanks and drinking cups, and all necessary appliances for hanging caps and cloaks. In buildings of two or more stories there shall be separate stairways for the sexes, easy of access and well guarded.

(7) *Desks and Blackboards.*—There shall be a single desk for each pupil in attendance. The desks shall be of suitable size with movable seats and adjustable lids. There shall be a desk and chair in each class-room for the use of the teacher, and at least two chairs for visitors. The laboratory shall be supplied with suitable tables for experimental work in both Physics and Chemistry. In the larger school special provision shall be made for teaching Biology and Physics. Single desks shall be graded I and double desks II, if there is suitable provision in each case for practical work in Science; otherwise, the grading shall be one degree lower. The blackboards shall be of sufficient extent and of good quality (slate preferred), properly placed in regard to light and distance from the floor, and furnished with troughs to hold chalk dust. There shall be a suitable supply of erasers for teachers and pupils.

(8) *Lighting, Heating and Ventilation.*—The class-rooms shall be lighted from the left of the pupils, the lower edges of the windows being on a level with the heads of the pupils. The windows of every school building shall be adjusted by weights and pulleys. The windows shall admit of an adequate diffusion of light throughout the whole class-room. Grade I is given only when the lighting is from the left. The temperature of the class-room, halls, waiting-rooms, cap-rooms and teachers' private rooms shall be not less than sixty seven degrees. Where stoves are used they shall be so placed and protected as to prevent discomfort to any pupil. Due regard shall be paid to the moisture as well as the temperature of the atmosphere, and provision shall be made for a complete change of air at least three times every hour. Grades I and II shall be given only in the case of schools heated with hot air, steam pipes or hot water pipes. The Gymnasium shall be heated and ventilated.

(9) *Gymnasium.*—The sizes best adapted for a Gymnasium, having regard to the number of pupils, are 80x40, 70x35, 60x30. The windows in the sides of the building should be at least twelve feet from the ground; each window should be about three feet high by six feet long. They should be sufficiently numerous to furnish adequate light and easily adjustable for the purposes of ventilation. One end of the Gymnasium should be a dead wall without windows; the other end of the Gymnasium should contain the doors for entrance and either one large window or several small ones. The floor of the Gymnasium should be planked and a suitable supply of mattresses provided. The trapeze and flying rings should be in the central portion of the building and should be suspended from a point at least sixteen feet from the ground. The side rings should be suspended from a point thirteen to sixteen feet from the ground. The stationary gymnastic apparatus, and the stove—where one is used for heating—should be placed at the end of the building containing the doors and windows. A locker and racks and stands should be provided for the movable appliances when not used by the class. Private rooms should be provided where the pupils may make any desirable change in their dress.

The Grant on the grading of the school premises shall be distributed according to the following scheme:—

	Closets.	Water Supply.	School Premises.	School Buildings.	Class-rooms.	Halls.	Waiting-rooms.	Cap-rooms.	Teachers' Rooms.	Desks.	Blackboards.	Lighting.	Heating.	Ventilation.

HIGH SCHOOLS AND UNIVERSITY MATRICULATION EXAMINATIONS.

INSTRUCTIONS TO PRESIDING EXAMINERS, 1897.

The Presiding Examiners are requested to peruse carefully the following instructions and see that they are fully carried out :—

1. Each Inspector, or such other person as may be appointed by the Minister, shall himself, in person, receive from the Department, or the Inspector, the examination papers, and shall thereupon be responsible for the safe keeping of the parcel containing the same, unopened, until the morning of the first day of the examination.

2. On the receipt of the bag containing the question papers the Presiding Examiner will see that *the seal is intact*. The bag can be opened by breaking the wire close to the seal.

3. The Presiding Examiner will satisfy himself that all necessary arrangements are made by the School Board in due time for the examination. If the trustees have not placed a clock in each room used for examination purposes the Presiding Examiner shall have power to hire the use of one for each room during the time required for the examination, and charge the same as part of the expenses of the examination.

4. The Presiding Examiner shall, if there is sufficient accommodation and if a sufficient number of papers has been received, admit candidates that through some oversight did not send their applications to the Inspector. The names of such candidates are to be added to the list. Their applications, when filled up, should be sent by the Presiding Examiner to the Inspector, and the required part of the fee with one dollar additional as provided, should be sent to the Education Department. The balance of the fees should be sent to the Board that bears the expense of the examination.

5. The Presiding Examiner shall exercise necessary vigilance at all times during the time candidates are engaged, and he *shall not give his attention to any work other than that which pertains to his duties as Presiding Examiner*. He shall take all necessary care to render it impossible for the instructions to candidates to be violated without his knowledge.

6. It is imperative that the regulations should be enforced by the Presiding Examiner and strictly observed by the candidates. In particular, the examination papers should be distributed, and the answer papers collected *punctually* at the time indicated in the time table.

7. Places shall be allotted to the candidates so that they may be at least five feet apart. All diagrams or maps having reference to the subjects of examination shall be removed from the room, and books, papers, etc., removed from the desks; all arrangements shall be completed, and the necessary stationery distributed at least *fifteen minutes* before the time appointed for the commencement of the first subject of the examination, and at least *five minutes* before each other subject is begun.

8. No person except the Examiners and any necessary attendants shall be present with the candidates in any room at the examination; and, at least one Examiner shall be present during the whole time of the examination in each room occupied by the candidates.

9. The Presiding Examiner shall, as indicated on the time table, read to the candidates their duties, shall draw attention to any feature of them that may require special care during the examination, and shall be explicit in giving instructions to the candidates as to the manner in which the slips are to be attached to the envelopes. The instructions (5), (6) and (7) for candidates are also instructions to Presiding Examiners.

10. *Punctually* at the time appointed for the commencement of each examination, the Presiding Examiner shall, in the examination room and in the presence of the candidates and other examiners (if any), break the seal of the envelope containing the examination papers, and give them to the other examiners and the candidates. The papers of

only the subject or subjects required shall be opened at one time. Until the examination in the subject is over no examination papers, other than those which the candidates receive, shall be taken out of the room.

11. Punctually at the expiration of the time allowed, the Examiner shall direct the candidates to stop writing, and cause them to hand in their answer papers *immediately*, duly fastened in the envelopes.

12. The Examiner shall keep upon his desk the certified list of the candidates, and as each paper in any subject is handed in, he shall check the same by entering the figure "1" opposite the name of the candidate, on the form provided. After the papers are handed in the Examiner shall not allow the envelopes to be opened, and he shall be responsible for their safe-keeping until transmitted to the Education Department, or placed in the hands of the Presiding Examiner.

13.—(a) Rulers are not to be used by candidates for Drawing.

(b) At the examination in Reading for Form I. each candidate shall read from the High School Reader one passage of not less than thirty lines, selected by the Examiners, and another from any book chosen by himself,

(c) At the examinations in Botany of the First and Third Forms, the Presiding Examiner shall himself provide the specimens to be submitted to the candidates, in accordance with sealed instruments from the Education Department. Two plants will be submitted to the candidates each examination, one for classification and one for description. In the classification of the former, candidates will be allowed to use their floras (High School Botany, Part II). The plant for description shall not be one of those fully described in (H. S. Botanical Note Books, Parts I. and II.,) and in the examination of Form I. it shall belong to one of the prescribed orders.

(d) At the examination in Biology for Form IV., and for Honor Matriculation, the material for examination will be sent from the Education Department, and will consist of two plants, a microscopic section, and an animal. The plant designated "A" is to be identified by means of the flora. Twenty minutes shall be allowed for this operation. The text-books shall then be taken from the candidates, and the paper with the plant designated "B," the animal and the microscopic section distributed. Each candidate is to be allowed the use of a compound microscope for twenty minutes during the second period.

(e) At the examination in Practical Chemistry for Form IV., the material for determination shall be sent from the Education Department, and shall consist of one pure simple salt. In the qualitative analysis of this salt the candidates shall not be allowed the use of text-books, analytical tables, notes, or charts. Places shall be allotted to the candidates so that each one shall be at least ten feet away from any other candidate. Each candidate shall have exclusive use of one set of reagents, apparatus and lamp while at work. If the number of candidates should exceed the accommodation of the laboratory, the candidates shall be examined in sections, and the greatest care shall be taken that those who have examined the salt shall hold no communication with those who have not yet done so.

(f) In Stenography, the candidates shall occupy a room separated from the candidates at the other examinations. The Presiding Examiner shall read the six hundred words to be dictated at a speed of fifty words per minute, and shall allow the candidate the balance of the hour for transcription. The matter is separated by vertical lines into groups of thirty words each. The extracts must not be read through to the candidates before the dictation commences. The Examiner should practise beforehand, reading at the required speed, that his dictation may be uniform. The candidate must enclose both his shorthand notes and the transcription.

REPORTS, ETC.

14. The Presiding Examiner shall report to the Education Department at the close of the examination any particulars in which the instructions, etc., were not observed, and he

shall mention any facts regarding the examination that he deems expedient to have brought before the Board of Examiners. The Presiding Examiner and his Assistants shall sign a declaration stating that in all other respects the instructions and regulations were fully complied with.

15. The Presiding Examiner shall indicate in his report to the Department the candidates who were placed in the several rooms respectively, and shall also send a diagram of the rooms on the form provided, showing the position occupied by each candidate and the Presiding Examiner during the examination.

16. The Presiding Examiner shall not arrange the answer papers according to subjects, but shall arrange them so that all the answers of each candidate for each Form shall be sent together and *in the order that their names appear* on the list of candidates for the examination. To facilitate this, elastic bands have been supplied, one for each candidate's set of answers.

17. The prompt return to the Education Department of the answers at the close of the respective examinations is essential, and may be greatly facilitated if the answers are sorted at the close of each day's examination. All reports should be *sent by post* on the respective days that the answers are forwarded and *in no case should they be enclosed in the bag containing the answers.*

18.—(a) The answers of the candidates taking the Form I. examination shall be returned at the close of that examination in the bag marked with *blue*.

(b) The answers of the candidates taking Form II. examination shall be returned at the close of that examination in the bag marked with *red*, those for the Commercial Diploma being placed in a *separate parcel*.

(c) The answers of the candidates for Forms III. and IV. examinations shall be returned at the close of those examinations in the bag marked with *green*.

(d) The answers of candidates for scholarships shall, for Forms III. and IV., be made up in a *separate parcel* before putting them in the bag mentioned for transmission to the Department.

(e) Each bag shall be so folded and tied that the words "The property of the Education Department" will be outwards. The shipping tag should be securely attached to the strap on each bag.

(f) All express charges must be prepaid, and no Commercial value should be given.

(g) All surplus examination papers may be given at the close of the examination to the Principal of the school.

REMUNERATION OF PRESIDING EXAMINERS.

(1) The Treasurer of the High School Board, on the certificate of the Public School Inspector, shall pay all the expenses of the examination, including the sum of four dollars a day and actual travelling expenses, for the Presiding Examiners.

(2) If an examination is held at a Public School, the Treasurer of the Public School Board shall, upon the order of the Inspector, pay all the expenses of the examination.

INSTRUCTIONS FOR CANDIDATES.

1. Each candidate shall satisfy the Presiding Examiner as to his personal identity before the commencement of the second day's examination, and any person detected in attempting to personate a candidate shall be reported to the Department.

2. Candidates shall be in their allotted places before the hour appointed for the commencement of the examination. If a candidate be not present till after the appointed time, he shall not be allowed any additional time. No candidate shall be permitted, on any pretence whatever, to enter the room after the expiration of an hour from the commencement of the examination.

3. No candidate shall leave the room within *one hour* after the distribution of the examination papers in any subject; and if he then leave he shall not be permitted to return during the examination on such subject.

4. Every candidate shall conduct himself in strict accordance with the regulations. Should he give or receive any aid or extraneous assistance of any kind, in answering the examination questions, or should he leave his answers exposed so that any candidate may copy from him he will forfeit any certificate he may have obtained. He shall also be debarred for two years from writing at any examination conducted by the Education Department.

5. Candidates are reminded that should any candidate be detected in talking or whispering, or making signs to another candidate, or in copying from another, or allowing another to copy from him, or in having in his possession, when in the room, any book, notes, or anything from which he might derive assistance in the examination, it shall be the duty of the Examiner if he obtain clear evidence of the fact at the time of its occurrence, to cause such candidate at once to leave the room; and such candidate shall not be permitted to enter during the remaining part of the examination, and his name shall be struck off the list. If, however, the evidence be not clear at the time, or be obtained after the close of the examination, the Examiner shall report the case to the Department.

6. Candidates are also reminded that the Presiding Examiner is not allowed to make *any explanation* or other statement regarding the probable meaning of any question or to *give any advice* as to what questions should be undertaken by the candidates or how any question should be answered.

7. Should any error appear to have been made in any question paper *no attention* shall be drawn to it during the time by either the Presiding Examiner or any of the candidates. Candidates may, however, at the end of the examination period submit the matter to the Presiding Examiner who, if he considers it necessary, will report on the matter to the Education Department at the close of the examination.

8. Every candidate shall write the subject of examination very distinctly at the top of each page of his answer papers, in the middle. If a candidate writes his name or initials, or any distinguishing sign or mark on his answer papers or uses any other paper or ink than those provided by which his identity might be disclosed his examination will be cancelled.

9. Candidates, in preparing their answers, shall write on one side only of each sheet and shall mark the sheets in each subject in the order of the questions, as 1st, 2nd, 3rd, etc.; and on the last sheet shall write distinctly the total number of sheets enclosed in the envelope, fold them once across, place them in the envelope provided by the Department, write on the outside of the envelope the subject of examination only, and on the slip provided, his name in full (surname preceding), and then securely fasten the slip to the envelope, as instructed by the Presiding Examiner.

EXTRACTS FROM INSTRUCTIONS TO APPLICANTS AND INSPECTORS.

First Form examination, \$2. Second Form examination, Part I, \$2; Parts I. and II., \$5; Third Form examination, \$5. Fourth Form examination, Parts I. and II., each \$3; taken together, \$5. Commercial Diploma examination \$4, (part \$2). For candidates for examination in the additional subjects, for the purpose of completing a course for pass Matriculation into any University or Learned Profession, the fee shall be \$2. If the fees for a candidate amount to more than \$5, only \$5 will be required.

Attention is directed to the scale of fees to be paid by candidates. When the fee is \$5, \$4, \$3 or \$2, the amount to be sent to the Department is \$3, \$2, \$2 or \$1 respectively. The balance of fees received is to be forwarded to the High School Board or other body that bears the expense of the examination.

Applications will not be received by the Inspector after the date mentioned, and candidates are reminded that they should in no case forward their applications to the Education Department. If the candidate should, through an oversight, neglect to have

his application duly sent to the Inspector, he may present himself at the examination, when the Presiding Examiner is at liberty to admit him, provided there is the necessary accommodation, and that a sufficient number of examination papers has been forwarded. An additional fee of \$1 will be exacted by the Presiding Examiner from a candidate who presents himself in this way.

INSTRUCTIONS OF THE EDUCATIONAL COUNCIL APPROVED BY THE MINISTER OF EDUCATION AND THE COMMITTEE OF THE SENATE OF THE UNIVERSITY OF TORONTO.

DUTIES OF EXAMINERS.

1. Each Examiner shall be required to discharge all duties pertaining to his office, and no duty which an Examiner is appointed to perform shall be delegated to another Examiner without the approval of the Educational Council. He shall designate all examination papers according to the Course of Study for which they are prescribed.

2. The Examiners in the case of the combined examinations of the Education Department and the University shall be present at the beginning of the reading of the answer papers. Each Examiner shall discuss with the Associate Examiners in his section the character of the answers intended by the questions, and especially the value of incomplete or imperfect answers, so as to insure, as far as possible, uniform marking. In cases of differences of opinion on any point the decision of the Examiner shall be final.

3. In the case of the combined examination aforesaid the Examiners shall make such reports as will enable the Council to settle the results of the examinations in accordance with the regulations of the Education Department and of the Senate of the University respectively.

4. The Examiners, or such of their number as may be appointed for that purpose by the Council, shall settle all doubtful and special cases, and upon recommending that a candidate in such cases be allowed his standing, shall so certify in the book of marks. They shall read appeals, determining and entering the results in the manner herein prescribed.

5. The Examiners shall report to the Council the pseudonyms of all Associate Examiners whose work appears to have been performed with marked carelessness or incapacity, or who have shown any substantial disregard of the Instructions of the Council.

DUTIES OF EXAMINERS.

6. The Registrar of the Council shall preside at all meetings of the Boards of Examiners. All cases of dispute at meetings of the Boards shall be settled by a majority of the Examiners.

7. During the reading of the answer papers the Registrar shall see that the instructions to Associate Examiners hereinafter mentioned are observed. He shall assign a pseudonym to each Associate Examiner and shall have power, in case of necessity, to transfer Associate Examiners from one section to another.

8. He shall exercise a general supervision over sorting, numbering and otherwise preparing the envelopes containing the answers, so that the answers shall be conveniently read by the Examiners and Associate Examiners; and, after the reading, he shall superintend the entering of the marks in the books by the clerks of the Department and the preparation of the books so that they may clearly indicate the subjects in which candidates have passed or failed.

9. He shall be present at the meeting of the Boards of any committee thereof called for the purpose of determining results, and shall furnish all necessary information.

10. He shall take the necessary steps in order that appeals may be read as speedily as possible in accordance with the Instructions of the Council.

DUTIES OF ASSOCIATE EXAMINERS.

11. The Associate Examiners shall be classified into sections according to the subjects of examination, and a chairman shall be appointed in each section by the council. The chairman shall have a general oversight of the work done in his section, and shall see that the regulations are carried out and that the marking is uniform. In the case of an emergency, as in the absence of a chairman of a section, the Registrar shall appoint a chairman *pro tempore*.

12. When, in the course of reading the answers, a section finds that the values assigned to the questions are unsatisfactory or that the Examiner has not followed the course of study prescribed by the Education Department or by the curriculum of the University of Toronto, it shall report through its chairman to the Registrar, who shall, in turn report to the Examiners of the department concerned, and shall obtain their decision on the point at issue.

13. No Associate Examiner shall have in hand more than ten papers at one time, nor shall he have more than one envelope open upon his table at one time, except in cases of suspected copying, in which case he shall return each sheet to its proper envelope. The papers shall be returned in the numerical order in which they are received. In cases of suspected copying, the Associate Examiner shall note on the face of the envelope "copying" see No, question

14. In the case of the papers in English grammar, literature and composition, one mark shall be deducted for each misspelt word and one mark for each instance of bad English. At all the examinations in arithmetic, either arithmetical or algebraical solutions shall be accepted.

15. In reading the answer papers each Associate Examiner shall mark distinctly in the left hand margin, the value assigned by him to each answer or partial answer, shall sum the total on each page at the foot of the margin and enter this total at the top of the next page; he shall place the result on the face of the envelope, indicating in the case of the papers in English grammar, literature and composition and deductions for misspelt words and incorrect English thereon, thus, e.g. grammar, 80—2 sp.; —4 f.s. = 74. He shall also sign his pseudonym on the envelope of each paper examined.

16. Associate Examiners shall be in their respective places so that the reading may commence promptly at the time specified, viz., 9 a.m. and 2 p.m., and no Associate Examiner shall stop work before the hours of closing, viz., 12 noon and 5 p.m., without reporting to the Chairman of the section.

17. Associate Examiners shall refrain from all unnecessary conversation or other causes of disturbance and shall devote themselves strictly to the work of the examination; they shall not at any time enter the rooms of other sections unless when it is necessary to do so in entering or leaving their own rooms; they shall keep a record of the papers read each day and shall report the result of their work to the Chairman of their respective sections.

18. The work is confidential throughout. Should the identity of an examination centre or of any particular candidate be discovered by an Associate Examiner he shall report the fact without delay to the Registrar of the Council, or, in his absence to the Clerk of Committees who shall change the Associate Examiner, or make such other arrangement as he may deem expedient.

19. The instructions herein contained so far as they relate to the combined examinations of the Education Department and matriculation into the University shall be subject to amendment from time to time with the approval of the Education Department and the Senate of the University.

TEACHERS' READING COURSE.

Inspectors are requested to distribute this circular among the teachers in their inspectorate, and to do what they can to further the purpose for which the Reading Course has been established.

It is confidently hoped that teachers will read the books prescribed and take an active interest in everything which tends to develop a healthy, progressive spirit in professional work.

It will greatly assist in the reading of the books if teachers will form small reading circles for this purpose, and meet once a fortnight to discuss what they have read during the time.

Those who keep in touch with the spirit of progress are sure to grow and advance in their profession. Those who do not go forward will go backward.

The books prescribed for 1897 are the following :

Psychology applied to Teaching, Baldwin	Price \$1 50
Education from a National Standpoint, Fouillée.....	" 1 50
How Canada is Governed, Bourinot	" 1 00

Candidates for admission to the Normal Schools in August, 1897, and in January, 1898, will be examined on the same books.

REGULATIONS.

The Minister of Education may prescribe a Course of Reading for the teachers of Public Schools. The Course shall extend over three years and certificates for reading more than three books in one year shall not be granted by the Inspector. For the purposes of the Course the year shall correspond with the calendar year. A teacher may enter on the Course by taking any of the books prescribed for the year. The list of books for each year will be announced by the Education Department.

Any teacher who desires a certificate of having taken the Public School Teachers Reading Course shall make a synopsis of not less than ten or more than fifteen pages of each book read, and shall transmit the same to the Inspector of his district on or before the 30th of June in each year. Such synopsis shall be accompanied by a fee of twenty-five cents and a declaration that the books prescribed for the year were read and that the synopsis submitted was prepared without assistance by the person signing the same.

The Management Committee of each Teachers' Institute shall appoint two persons, who, with the Inspector, shall form a Committee for determining whether the synopsis made by the teacher desiring a certificate indicates that the books have been read intelligently. The inspector shall issue a certificate for each book so read, on the form prescribed by the Minister of Education to every teacher whose synopsis has been found satisfactory. If a teacher is unable to read all the books prescribed for the year, or if his synopsis of any book has been rejected, he may substitute the books of the next year for those omitted or rejected.

Any teacher who submits to the Education Department certificates showing that he has satisfactorily read nine of the books prescribed, shall be entitled to receive from the Minister of Education a Diploma certifying to the completion of one full reading course covering three years. Additional diplomas shall be awarded to teachers who complete additional courses of three years.

TORONTO, January, 1897.

MEMORANDUM FOR PRINCIPALS OF SCHOOLS.

As it is represented that the granting of medals and prizes on the basis of the relative standing of candidates at the Departmental Examination is the means of withdrawing pupils from the High Schools which they should properly attend, the Department will not, hereafter, furnish the standing of High School pupils for the purpose of such awards.

TORONTO, January, 1897.

TEACHERS' INSTITUTES.

Memorandum.

The attention of County Inspectors is called to the provisions of the Public Schools Act (81) and the Regulations (91 and 92) regarding Teachers' Institutes. There is no authority for holding more than one meeting in the year, which is to be held on a Friday and Saturday. The inspector is required to see that no additional time is taken from the legal teaching days, unless requested by a resolution of the County Council. As the school term of the last half-year is generally broken by Labor Day, Thanksgiving Day, and not unfrequently by Agricultural Fairs, it is recommended that the Institute should be held, if possible, during the first half-year.

TORONTO, January, 1897.

REGULATIONS OF THE EDUCATION DEPARTMENT WITH RESPECT TO
THE STUDY OF DOMESTIC SCIENCE IN PUBLIC SCHOOLS.

APPROVED JANUARY 29TH, 1897.

1. The Board of Trustees in every city, town and incorporated village, may establish classes in domestic science for the purpose of giving instruction in cooking and sewing, subject to such regulations as may be issued by the Minister of Education from time to time. The instruction in cooking should be limited to pupils in the 4th and 5th Forms.

2. The equipment for classes in cooking should consist of an ordinary cooking stove, such as would be required in a family of ten persons. The table or tables for practice should be provided with at least ten small circular gas burners, or other suitable appliances, for the use of pupils. Other appliances should be similar to those found in a well equipped kitchen, such as a hot water tank, sink, cupboard for pots and dishes, groceries, vegetables, etc.

3. The class work should consist of demonstration lessons and actual practice in cooking under the direction of the teacher. The course should be completed in one year, but might be extended in the case of pupils whose progress was not satisfactory for a longer term. Each class should not exceed twenty-five pupils and should receive instruction for at least a full half day each week.

4. The course in domestic science should consist in the making and care of fires; the economical use of fuel; the polishing of stoves; dish washing and care of the kitchen and sinks; the use of disinfectants; the selection of food material as to quality, value and cost; how to purchase vegetables, meat and fish; the storage of vegetables, meat, bread and fruit. A course of demonstration and practice lessons in plain household cookery, including the cooking of fruit, vegetables, cereals, meat and fish. Easy lessons in the chemistry of food, their nutritive properties and digestibility. In the fifth form, the course of instruction might include lessons in canning fruit, making cake, pies, puddings;

lessons in invalid cooking, and the setting of tables. Such examinations might be held during the course, as the teacher in charge might consider expedient. The course in sewing shall consist of plain sewing, hemming, cutting and making of simple garments, knitting, darning, etc.

COURSE FOR TEACHERS.

5. After the First of January, 1898, no person shall enter upon the course of instruction for teachers who is not at least seventeen years of age, and who is not the holder of a Junior Leaving High School Certificate. The term shall consist of five days per week for at least thirty-five weeks. The course shall include (1) The Chemistry of Foods and Cooking ; (2) Household Science ; (3) Home Nursing and Hygiene ; (4) Laundry Work ; (5) Sewing, Drawing and Designing.

6. *The Chemistry of Foods and Cooking* should include the study of ferments, food adulterations and their tests, as well as their analysis in order to ascertain their digestibility and nutritive properties. In other respects the course shall be the same as that prescribed for the fourth and fifth forms of Public Schools, but of a more advanced character.

7. *Household Science* should include (1) The House—its position, construction, aspect, drainage, ventilation ; (2) Lighting—gas, oil, candles ; management and cleaning of lamps ; what to do in case of catching fire ; (3) Heating and Ventilation—Open and closed fires, management and cleaning of stoves ; necessity of fresh air ; avoidance of draughts. Practical demonstration—model stove and brushes, brass, copper and steel cleaning ; (4) Drainage and Dustbins—Construction and cleansing of drain pipes : back yard ; destruction of refuse ; cleaning sinks and grease taps, preparation and use of lime wash ; (5) Water—Cleaning cisterns, taps, water-bottles ; use of filters ; burst pipes and how to prevent ; furred kettles. Practical demonstration—cleaning water-bottles and teapots, fur-preventers ; (6) Furniture—Choice of, polishing, brushing ; washing paint ; hints on choosing and cleaning wall papers, carpets, mats, curtains, ornaments and pictures ; (7) Arrangement of Bedroom—Bed and bedding, airing bed clothes ; blinds ; weekly and daily cleaning ; precautions against insects ; (8) Every morning's work—Occasional work, including cleaning windows, mirrors, table knives, spoons and forks, washing dinner and tea things. Practical demonstrations—cleaning spoons, forks, tumblers, etc. ; (9) Food—Marketing ; storing and cooking food ; cleansing cooking utensils. Practical demonstration—jars, etc. ; samples of rice, lentils, etc.

8. *Home Nursing and Hygiene* should include the study of the laws of health ; emergencies and accidents ; the preparation of food for invalids ; sick room ventilation.

9. *Laundry Work* should include washing of flannels, table linen, body linen, cuffs and collars, colored prints, muslins, handkerchiefs ; scalding ; rinsing, bluing bed linen and towels ; sprinkling, stretching and folding ; plain ironing without the use of starch ; starch making ; starching and ironing shirts, collars and cuffs ; recipes for making hot and cold starch ; the use of alkalies, borax, washing crystals, acids, etc.

10. *Sewing* should include hemming, cutting, fitting and making of simple garments, study of textiles and fabrics, educational sewing, knitting, darning, millinery.

11. In July of each year an examination shall be held by examiners appointed by the Educational Council. Every candidate shall be required to give three demonstration lessons at this examination—one in Artisan Cooking, one in Invalid Cooking and one in Detecting the Adulteration of Food. Each demonstration lesson will be valued at 20 marks. A paper covering the course will also be submitted to be valued at 100. One-third of the marks obtainable for the demonstration lesson and one-third of the marks assigned to the written paper shall be required for pass.

ANNUAL DEPARTMENTAL EXAMINATIONS.

1. These examinations are specially designed for candidates for a teacher's certificate, or as a preliminary qualification for some other professional course of study. It is therefore desirable that those who are pursuing their studies for any other purpose should be allowed the fullest discretion with respect to these examinations.

2. Under Regulation 38 of the Education Department, the Principal of the High School has ample authority to make "such promotions from one Form to another as he may deem expedient." It is not intended that High School pupils should be required to take any Departmental Examination in order to be entitled to promotion. Such a test, apart from the expense to the pupil, would be objectionable on many grounds which must be obvious to every teacher. Although the Education Department has no desire to interfere with the discretion of any pupil as to the examinations he should take, or to prevent any teacher from giving such advice to pupils with respect to examinations as appears, in his judgment, to be for their best interests, it is to be distinctly understood that a Departmental examination is not considered a necessary part of any Public or High School course of study.

3. The Departmental examinations should not be taken as the chief test of the teacher's efficiency. Sometimes teachers are exposed inadvertently to the application of such a test by comparisons made with other schools before the annual spring opening; at other times trustees inconsiderately make such a test the chief basis of a teacher's promotion. A more correct view of the purpose of examinations on the one hand, and of the dignity and qualifications of the true teacher on the other would greatly assist in establishing standards of efficiency which would amply protect the good name of every well conducted school.

TORONTO, May, 1897.

MEMORANDUM FOR PRESIDING EXAMINERS.

1. In order to avoid any possible oversight or delay at the examinations, the Presiding Examiner is requested to read carefully the enclosed instructions and make himself familiar with the duties to be performed.

2. The confidential circular respecting the examinations in Botany of the First and Third Forms is enclosed, so that the Presiding Examiner may make himself acquainted with the special duties required.

3. The enclosed time-table must be strictly followed, and as stated in Instruction 8 for candidates, the paper to be used for all subjects, including Drawing and Bookkeeping, must be the kind authorized. Candidates are not permitted to bring into the Examination Hall ruled paper for the examinations in Bookkeeping. Attention is called to Instruction 14. The forms, with necessary directions, will be found in the bag which is not to be opened until the morning of the examination.

4. After opening the bag the Presiding Examiner is requested to arrange the envelopes containing the question papers in the order on which the subjects appear in the time-table, and thus prevent the distribution of papers at any time other than that mentioned in the time-table. Presiding Examiners are requested to forward to the Education Department the answer papers of each Form immediately on the completion of the examination in that Form.

5. In the case of centres having an examination in Science of the Fourth Form, the material required as mentioned in Instruction (*d* and *e*) will be sent in time for the examination in that department.

6. It is to be noted that whilst the examination in the Practice of Stenography for Commercial Diplomas requires a rate of 50 words per minute, that for Commercial Specialists' Certificates exacts 60. In both examinations the rate of transcription is 12 words per minute.

7. In view of the large number of candidates, and the importance of the interests concerned, Presiding Examiners are requested to aid the Department in having the Examinations carefully conducted.

TORONTO, May, 1897.

1. The accompanying reports, which will be confidential, should be filled up at the close of the academic year, and forwarded to the Department *not later* than the 5th July.

2. Except in form 10 (a) (to be returned in the same envelope) containing the alphabetical list of the names of candidates, no mark or word is to be used by which a school can be identified.

3. The names of such students only, as in the judgment of the staff, are fit to pass in each subject and to obtain, where required, the aggregate of marks, should be reported.

4. No student is, however, debarred from writing at the examination, and every candidate, whether recommended or not, is required as heretofore to make the usual application to the Inspector. It is not intended, as appears to have been inferred in some instances, that all the candidates from a school should be entered on the confidential lists, unless the teachers believe that they all deserve to pass.

5. The names of the students to be recommended, regardless of the certificates for which they write, are to be arranged in the respective columns of forms 242 in the *order of merit*, and the percentage to which the candidate is believed to be entitled is to be placed opposite each name in the *first* column under each subject. The *second* column must not be used.

6. The percentage is to be based upon the judgment of those members of the staff who have been immediately engaged in the preparation of the candidates, the lowest percentage assigned being $33\frac{1}{3}$.

7. In determining the percentages to be assigned to candidates the Principal is left to his own discretion as to what tests are to be employed. It is assumed that the written examinations used for the purpose will be of such character, and will be held at such times, as are best adapted for training purposes.

8. It should be understood that while the relative standing of the candidates in the report is of far more importance than the percentage assigned to each, a correct estimate of the latter, so far as can be made, should be given.

9. For the information of Principals it may be stated that previous confidential reports were in many cases the means of preventing deserving candidates from failure, and in the interests of the candidates concerned the report should be made with due care.

10. No recommendations regarding the proficiency of candidates can be entertained other than those shown by the relative standing and percentages given in the confidential reports. Forms are supplied on application to schools sending students to the examinations.

CIRCULAR TO INSPECTORS AND HIGH SCHOOL PRINCIPALS.

GENTLEMEN,—I have the honor to inform you that for the academic year 1897-8 the following modifications are made in the Revised Regulations ;

PUBLIC SCHOOL LEAVING EXAMINATIONS

This examination will be conducted in 1898 by the High School Entrance Board of Examiners, and on the same course of study and under the same Regulations as in 1897. Botany will, therefore, not be required, and Physiology and Temperance will, as formerly, be one of the subjects of Examination. High School pupils are not eligible to write at this examination.

FIRST FORM EXAMINATION.

This examination, which is open to all pupils, will be conducted as heretofore, the course embracing Reading, Writing and Bookkeeping, Drawing, Geography, and Botany. First Form Certificates will have the same qualifying value for Teachers' certificates as Public School Leaving certificates.

JUNIOR AND SENIOR LEAVING.

Regulation 46 is amended so as to allow at the Form III. examination for Junior Leaving the following options :—

- (a) French and Greek.
- (b) German and Greek.
- (c) French, German, and Chemistry.
- (d) French, Physics, and Chemistry.
- (e) German, Physics, and Chemistry.
- (f) Botany, Physics, and Chemistry.

The obligatory subjects of Form III. for Junior Leaving are as already prescribed viz :—English Composition, English Literature, Ancient History, Algebra, Geometry and Latin.

Regulation 47 is amended so as to allow at the Form IV. examination for Senior Leaving the following options :—

- (a) French and Greek.
- (b) German and Greek.
- (c) French and German.
- (d) French and Chemistry.
- (e) German and Chemistry.
- (f) Biology and Chemistry.

The obligatory subjects of Form IV. for Senior leaving are as already prescribed, viz :—English Composition, English Literature, Algebra, Geometry, Trigonometry, English and Ancient History, Physics, and Latin.

Candidates for Junior and Senior Leaving standing will be required to make 50 per cent. of the aggregate marks allowed in the subjects prescribed in each of the Forms or parts of Forms as well as one-third in each subject ; 67 per cent. of the aggregate will be required for honors.

The examinations in Botany and Biology in Forms III. and IV. will be equal in difficulty as near as may be to the examinations in the language or languages for which Botany and Biology are taken as options.

These modifications, it will be understood, make no change in the course or the percentages required by the University for matriculation.

SPECIALISTS.

The temporary provisions defined in Circular 2 for obtaining specialists' non-professional standing will be continued in 1898 to those who were candidates under the Regulations set forth in that circular. For all other candidates the provisions of the Revised Regulations (section 51) will govern.

NORMAL COLLEGE.

Candidates entering the Normal College in October of this year or those writing at the final examination in December of this year, may, if they prefer, take the course in Methods set forth in Circular 9. After December, 1897, every candidate for the Normal College examination will be required to take the regular course of training at that institution.

EDUCATION DEPARTMENT,
TORONTO, August, 1897.

DEPARTMENTAL REGULATIONS.

Approved August 17th, 1897.

TEXT-BOOKS AUTHORIZED FOR USE IN PUBLIC SCHOOLS, HIGH SCHOOLS, AND
TRAINING SCHOOLS.

1. The text-books named in Schedule "A" shall be the authorized text-books for Public Schools. Pupils taking any optional subject in the Public School course may use the text-book authorized in such optional subject. The text-books in French and German are authorized only for Schools where the French and German language prevails, and where the Trustees, with the approval of the Inspector, require French or German to be taught in addition to English.

2. The text-books named in Schedule "B" shall be the only authorized text-books in High Schools and Collegiate Institutes for the course of study prescribed in Form I., II., and III. At the option of the Principal and High School Board books authorized for use in the Public Schools may be used in Form I.

3. The text-books named in Schedule "C" shall be the authorized text-books for Model Schools, Normal Schools and the Ontario Normal College.

4. The text-books in Schedule "D" used in any school on the 1st July, 1897, and recommended by resolution of the trustees to be continued in use, shall be deemed as authorized in such schools until further notice.

5. For religious instruction, either the Sacred Scriptures or the Scripture Readings adopted by the Education Department, shall be used as prescribed by the Regulations of the Education Department.

MEMORANDUM.

COUNTY MODEL SCHOOLS.

Directions to Boards of Examiners.

1. The attention of Boards is directed to the provisions of Regulations (57-65) and to the information in the Model School Calendar.

2. If a Primary, Junior Leaving, or Senior Leaving Certificate is not presented, Regulations (45-49) will show the certificates that give the equivalent standing. It will be understood that a Form I, a Commercial, or a District Certificate, is accepted in lieu of a Public School Leaving Certificate and that a Form II Certificate or a Primary Certificate granted in 1896 covers a Part I of Form II Certificate.

3. Renewals (Regulations 87) are now limited to the County and cannot be endorsed for another County. It is presumed that each Board will consider the interests of the schools of the County. If Renewals are granted, the grounds in each case should be stated. The Renewals granted will include any certificate "extended" as provided for in the same Regulation.

4. It is recommended that a Renewal be granted, if requested, in the case of any certificate expired when the candidate made application to attend the Normal School but was informed that no more students could be admitted on account of lack of accommodation.

5. It will be the duty of the Board (Regulation 59) to grant no certificate to a candidate who will not be 18 years of age before the first of January next.

6. Answer papers with the Model School Principal's report, are to be retained by the Board. The former may be destroyed after the first of March following.

7. The Board is requested to fill out the Official Report with all details asked for, and to forward it to the Education Department *not later than* the 31st of December.

Toronto, October, 1897.

APPORTIONMENT OF THE LEGISLATIVE PUBLIC SCHOOL GRANT FOR 1897.

The apportionment of the grant to the several municipalities is based upon the latest Returns of Population for the year 1896, and the division between the Public and Separate Schools on the average attendance of that year, as reported by the Inspectors, Public School Boards, and Separate School Trustees respectively.

While the Separate Schools will receive their portion of the grant direct from the Department, that of the Public Schools will be paid, according to the schedule, through the respective County, City, Town and Village Treasurers.

The grant formerly made by County Councils as the equivalent of the Government grant has been dispensed with. The original intention of this grant was that it should be levied by uniform rate over the whole county. In practice, however, it was found in almost every case to be levied on the township, and thus as a matter of fact was a township rather than a county grant. Under the School Act of 1896 township councils are authorized to levy the sum of \$50 for each school, in addition to the sum of \$100 which they were authorized to raise under the Act of 1891. As the sum formerly levied by the county amounted to over \$30 per school, the increased contribution made by the township is less than \$20 in excess of what it formerly was. As the law now stands, every township council is required to raise \$15 for every school in the township. In the case of schools with an assistant teacher, \$100 additional is required for such teacher.

2. ROMAN CATHOLIC SEPARATE SCHOOLS.

(1) *Report of J. F. White, Esq., Inspector of Western Division.*

SCHOOLS AND TEACHERS.

Situation of schools.	Number of school districts.	Number of buildings.	Number of teachers.	Male teachers.	Female teachers.	Religious teachers.	Secular teachers.
Rural sections - - -	62	63	82	14	69	29	54
Villages - - - - -	9	9	13	1	12	5	8
Towns - - - - -	23	24	65	1	64	50	15
Cities - - - - -	9	44	182	24	158	175	7
Total, 1897 - - -	103	140	343	40	303	259	84
Total, 1896 - - -	104	140	341	44	297	257	84

As may be seen from the above table there has been very little change during the year in the number of schools and teachers. No new school has been organized this year, while one rural section—No. 6 Artemesia—has ceased to exist.

The Christian Brothers withdrew from the boys' school, St. Catharines, in June, and have been replaced by lay teachers. This leaves Toronto as the only place in the Province where this order remains. There have been few other important changes, though in some of the larger places many changes in the personnel of the religious orders have been made this year as in other years. This disturbance of the staff, averaging in some places more than one half yearly, cannot but be injurious to the best interests of the schools. There are comparatively fewer changes among secular teachers.

ACCOMMODATIONS.

Under this head but little improvement is to be recorded for the year, due in great measure to the stringency of the times. No. 5 & 8 Anderdon, Canard River, organized last year, has a neat, comfortable brick building giving good accommodation for the section. The greatest improvement has been made in Berlin, where the old building has been re-modelled and a new part added, more than doubling its former capacity. The new rooms are excellent in all respects; the heating is by hot water furnace, with suitable means for ventilation; the provision for cleanliness and sanitation is the best in this division.

In many places a gratifying improvement is noticed within the last few years in regard to the cleanliness and neatness of the buildings and premises. The circular touching this subject sent recently to the school authorities should have the effect of arousing to action those who have been remiss in this respect. It is plainly evident that every effort should be made to render the school bright and attractive to the children—a model of neatness and cleanliness to be afterwards followed in their homes—a place so inviting and well-ordered that it will tend to call forth the child's better instincts and repress the baser. Did all teachers fully realize that unclean floors, dark bare walls, and broken furniture or equipment all tend strongly to disorder and consequent waste of teaching effort, surely none would be found content to work day after day in such unpleasant, cheerless surroundings. It will not necessarily involve any serious monetary

outlay to relieve the blank walls by some bright, attractive pictures, to secure plants and flowers for the windows and grounds, to provide trees whose shade will be grateful in the warm days, and some vines to hide the unattractive features of the outbuildings. These are all within the reach of any teacher in the poorest section who is simply convinced of their need and benefit, and who will interest the children and parents in the task of securing them. The exercises of Arbor Day do not seem to have been turned to the best advantage of the rural schools. In some sections the chief observance has been a cleaning up of the school yard and sometimes of the building. Few trees and shrubs were planted, or flower seeds sown, or anything done to beautify the grounds, and the real purpose of setting apart such a day would seem not to have been grasped. Let us hope that a suitable observance of the day may soon become general.

EXAMINATION RESULTS.

This year not so many pupils were sent up as in 1896 for the Entrance Examination, but a larger number succeeded. When from all grades of schools an average of seventy-five per cent. of the candidates pass such an examination it affords good evidence that the teaching is intelligent and thorough. It may be said that the number of candidates is not large for the number of teachers in the inspectorate. But it should be understood that Toronto, maintaining a system of High Classes for pupils to Form III. of the High School course, sends no candidates to this examination. This year for the first time the girls from one school tried, and eight out of ten succeeded. In rural sections nearly one-half of the teachers are in French or German districts, where children start school life with little if any knowledge of English, and end their studies at an early age. In these circumstances it is difficult for the teachers to prepare pupils for this test, but some efficient teachers have overcome all obstacles and have made an excellent showing. Again some weak sections with a small and irregular attendance cannot send up a class every year, while certain of the larger places do not prepare many pupils as the parents have not encouraged it. But both in the total number and in the percentage passing there has been a very creditable advance in the past few years and the prospects of even better results are favorable.

As several newspapers published a detailed statement of the results, there is given here only a summary and a comparison of the total with that for 1896.

For public school leaving 52 wrote, 22 passed, and 12 obtained entrance standing. In Toronto (St. Joseph's and Loretto High Classes), Hamilton, and eight Windham (La Salette), pupils were successfully prepared for the following High School examinations:—Form I., Form II., Primary (III. Class) and Junior Leaving (II Class). In addition a goodly number obtain year after year diplomas for typewriting and shorthand, the commercial course being a favorite one in Toronto and Hamilton.

WORK OF INSPECTION.

The number of teachers in charge of the two Separate School Inspectors has been for a few years in the neighborhood of 720, the exact figure for this year being 725. These are scattered pretty well over nearly the whole of the province, from the Detroit River to the Quebec boundary, and west so far as Rat Portage and Keewatin, near the borders of Manitoba. In a few localities there are groups of schools within each reach of one another, but in general they are rather widely separated, thus adding very considerably to the difficulty of reaching them all within a limited time. Considering that a good deal of time is required for correspondence, making reports, examinations and general office work, it would be impossible to spend more than twenty-five to thirty weeks each year in the actual work of examining schools. If the schools are to be visited but once a year, an average of half a day should be given to each room; but in present circumstances this time has often to be made shorter, for otherwise the round of the schools could not be made in the year. Omitting Toronto from the calculation, the Public School Inspectors have an average of under 120 teachers, all within the limits of a county or part of a county. They are required to visit each of these teachers twice a year. But it will be seen that by comparison the Separate School Inspectors have much more to do in making the one visit yearly. In my opinion the time has now come when additional provision for inspecting these schools should be made. Granted that one visit of inspection a year is of benefit to the school and teacher, it follows that two such visits would be of a greater benefit. Especially the larger places, where there are often more difficulties in the educational problem, require more frequent inspection. For the rural districts this need is not so urgent, but in case of a change of teachers or of any special difficulty the Inspector should have discretion to make a second visit if leisure allowed.

(2) *Report of W. Prendergast, Esq., B.A., Inspector, Eastern Division.*

Separate schools are established in nine villages, twenty towns, three cities and 131 rural sections in the eastern division of the Province. The number of urban schools is exactly the same as at time of last report. Three new rural sections were organized during the year 1897, viz., No. 21 Clarence, No. 15 Alfred and No. 4 Ferris; Since July 1895 four rural schools were established,—the three just mentioned and No. 8 North Plantagenet, during the same period Nos. 10 Otonabee, 15 North Plantagenet and 7 Kitley amalgamated with adjoining sections and ceased to exist as Separate Schools. The teachers are distributed among the schools as follows:—

	Lay.	Religious.	Total.
Villages.....	6	27	33
Towns	50	50	100
Cities	33	71	104
Rural sections.....	134	11	145
	223	159	382

An increase in the attendance took place in several of the urban schools, in some of these it was met by a change in the organization rather than by an increase in the number of teachers.

Buildings.

With one or two exceptions the urban places are well provided with buildings. In the rural sections several new school houses were erected during the year, and many of the old ones repaired and renovated. New buildings were erected in No. 2 Haldi-

mand, No. 7 Alfred and 8 Plantagenet, No. 15 Alfred, No. 21 Clarence, No. 2 Longueuil and No. 2 Stafford. The last mentioned was of brick, all the others frame. Although neither an expensive building nor one of striking external appearance, yet in point of suitability for purposes the school house of No. 2 Haldimand is by far the best one-roomed building in the division. The Rockland trustees have enlarged and remodelled their building to such an extent that little of the original remains; the present handsome and comfortable edifice is practically new. The people of Casselman whose school house was burned at the time of the late disastrous bush fires, intend to re-build at an early date.

High School Entrance and other Examinations.

Parents, pupils and teachers have reason to be pleased with the result of the recent High School Entrance Examination. All the schools did well, and many did excellently. 370 candidates wrote on this examination, and 261 were successful. 228 of the successful ones and 307 of the candidates were from urban schools. A total of 61 wrote on the Public School Leaving examination, and 34 were successful. In addition to these, candidates from Mattawa, Weston, Alexandria girls' school, and Renfrew girls' school were successful at some of the higher Departmental examinations.

Ottawa Schools.

Inasmuch as considerable public attention has been directed to the Separate Schools of Ottawa during the last three years, I may be permitted to give some details. These schools are divided into two sets—for convenience called the French schools and the English schools. The School Board, as is pretty generally known, is divided into two committees, each of which entirely manages its own set of schools—at least as far as engaging teachers and organizing classes is concerned. The English committee employs 33 teachers, and the French committee 50; 14 of the former and 12 of the latter are lay teachers, the other 57 are sisters of the community of Grey Nuns. One of the teachers (the principal of the bi-lingual Model School), is a University graduate and a High School specialist, one holds a first-class certificate, 15 hold seconds, one a third, and 8 District certificates for counties of Prescott and Russell. This year 13 girls and 20 boys of the English schools were successful at the Entrance examination; 8 girls and 5 boys passed the Public School Leaving, and 7 girls from one of the French schools were also successful at the Public School Leaving examination. In 1896 10 girls and 17 boys passed the Entrance; previous to 1896 no Separate School pupils were prepared for this or any other public examination.

French Schools.

The Separate School pupils of the United counties of Prescott and Russell are almost entirely French Canadian. There are 59 rural and 4 urban Separate Schools in these counties; the teachers employed in them number 84, 21 of whom are members of religious communities; 57 of the lay teachers hold District certificates. The supply of qualified teachers suitable for these schools has always been less than the demand, but there has been an improvement in this respect each half year. Only 6 temporary certificates were granted this half year as compared with 17 for the last half of 1896, and I think I may safely say that there will be no further need for "permits" in these counties. I hope that in a very short time it will be also possible to secure qualified teachers for all the French Schools in other parts of the province. I am indebted to Inspector Summerby for many courtesies in connection with the work of inspection in these counties.

Qualifications of Teachers.

Nearly all the lay teachers engaged in urban schools hold at least second-class certificates. In the rural schools, other than those mentioned in a previous paragraph, some of the teachers hold second and some third-class certificates; many of those holding third-class certificates have also passed the Junior Leaving examination. Four of the religious teachers of the inspectorate hold second-class, and two third-class certificates; several of the others have held third-class certificates which are now expired.

ART SCHOOLS.

1. *The Report of the Brockville Art School for the year ending 30th of April, 1897*, shows that sixty-two students attended the regular courses of study during the session; also a few students in the extra subjects. It is encouraging to state that the classes are composed of a larger number of adults than formerly, and that the mechanics now avail themselves of the privileges of evening classes in Art Schools. Sixty-six lessons were given on every subject, and special attention was paid to the studies more adapted to the mechanic, with very excellent results. One night a week was given to the pupils interested in the higher grades of work with illustrated talks of perspective and object drawing, landscape and figure drawing, etc. These meetings were well attended and much appreciated.

The receipts, including \$448 Government grant, were \$549.07. Expenditure, \$549.07.

2. *The Report of the Hamilton Art School for the year ending 30th of April, 1897*, shows 163 students enrolled, and the total number of attendance in the various subjects taught 8,174.

The students, who represented all classes of society in the city, with others from remote points in the province, without exception expressed themselves as desirous of using the knowledge of drawing, modelling, designing, etc., for practical purposes.

The equipment of the school has been added to as required, particularly by a set of Wall Charts in plane and descriptive geometry, mechanical movements, construction, and the aesthetical proportions of architectural details, also by six portfolios containing hundreds of drawings to scale, of the palaces and temples of the State of Jeypore, presented by His Highness the Maharajah of Jeypore.

The receipts, including \$574 Government grant, were \$2,785.67. Expenditure, \$2,699.14. Balance on hand, \$86.53.

3. *The Report of the Kingston Art School for the year ending 30th of April, 1897*, shows that the classes re opened early in October, with an attendance above the average, the evening classes being attended by carpenters, mechanics, contractors, etc., as well as by many younger students desirous of becoming good mechanics.

The curriculum of the Education Department has been carried out in all the courses, the teaching staff remaining the same as during the previous session, while the progress of the pupils in all the classes has been very satisfactory to the directors and to the principal.

The number of pupils attending the day classes was thirty-three, while twenty four attended the evening classes.

The Departmental examinations were held in the rooms on the 29th and 30th of April, and the 1st of May. The results have not yet been published, but from the quality of the work much is expected.

The receipts, including \$525 Government grant, were \$672.42. Expenditure, \$670.80. Balance on hand, \$1.62.

4. *The Report of the London Art School for the year ending 30th of April, 1897*, shows that the school is more successful and in a better financial position than formerly. The evening classes, comprising three terms of thirty-six lessons, each of two hours' duration, were attended by forty-four pupils. The afternoon classes for oil and water color, painting, modelling in clay, China painting, etc., were largely attended, and it is grati-

fying to state that the students from this school (established in 1877) have distinguished themselves in various trades and professions, including wood engravers, wood carvers, lithographers, China painters, decorative artists, architects, etc., besides many who have become professional teachers.

The receipts, including \$422 Government grant, were \$501.02. Expenditure, \$497.95. Balance on hand \$3.07.

5. *The Report of the Ottawa Art School for the year ending 30th of April, 1897*, shows that the school session extended from the 1st of November, 1896, to the 30th of April, 1897. The number of students attending was sixty-eight, the morning, afternoon and evening classes were conducted under the supervision of a staff of five teachers, covering not only the art school courses prescribed by the Education Department, but other high grades of art work.

The exhibition of students' work, held at the close of last session, was visited by the Hon. the Minister of Education, who expressed himself as extremely satisfied with the progress of the students.

It is proposed during the next session to provide more accommodation for teaching practical and mechanical work, including wood engraving.

The receipts, including \$456 Government grant, were \$1,230.86. Expenditure, including borrowed money, \$1,660.46.

6. *The Report of the St. Thomas Art School for the year ending 30th of April, 1897*, shows that 44 students attended the day and evening classes, representing the following trades and professions, viz.: Architects, clerks, carpenters, druggists, draughtsmen, machinists, railway employes, students and teachers.

This school is incorporated with the St. Thomas Free Library, which contributes to its maintenance.

7. *The Report of the Toronto Art School for the year ending 30th of April, 1897*, shows that the school was open from the 28th September, 1896, until the 30th of April, 1897. Three terms of ten weeks each were held and the number of students enrolled was 128.

The work done by the students of this school was again successful in the Provincial examinations in drawing, painting, etc. Gold medals for the advanced course and industrial designs have been taken for three years in succession by students of the Toronto Art School; also silver and bronze medals for designs, painting in oil, lithographing and wood carving.

The life classes have been very successful and well patronized, several of the students of these classes having prepared illustrations which have been published in some of the leading periodicals. It is also gratifying to state that the design made by one of our students for a stained glass window for the Toronto City Hall has been favorably mentioned.

The receipts, including \$489 Government grant, were \$2,400.88. Expenditure, \$2,381.80. - Balance on hand, \$19.08.

8. *The Report of the Ontario Society of Artists for the year ending 30th of April, 1897*, shows that the society held or contributed to the following exhibitions during the year:

1. The Exhibition of the Society of Artists, which included two hundred and ten oil and water color paintings, sculpture, etc., was considered to be of better average merit than the collections of former years.

2. Hamilton Arts and Crafts Association Exhibition. Several pictures were loaned to the association at the close of the Society of Artists Exhibition.

4. Winnipeg Industrial Exhibition. A large collection of paintings was sent by the society representative of the work of Ontario artists: although from a pecuniary standpoint the results were not very encouraging, the efforts of the society were much appreciated and the general interest shown by the public was an indication that the enterprise was a success.

4. Toronto Industrial Exhibition. The art department, as formerly, was under the management of this society. The pictures exhibited included, not only the works of Canadian artists, but many paintings representative of leading European artists.

5. Ontario Educational Museum. The society has entered into an agreement with the Hon. the Minister of Education to supply a collection of paintings to fill a large art gallery recently added to the museum, and it is to be hoped that this will give an impetus to art education in this province and stimulate the members to renewed energy.

The receipts and balances on hand were \$5,518.32. Expenditure, \$2,059.30. Balance on hand, \$3,459.02.

SCIENTIFIC INSTITUTIONS.

1. *The Report of the Hamilton Association for the year ending 30th of April, 1897*, shows that ten meetings of the General Association, and thirteen sectional meetings, were held during the session.

Lectures.

Inaugural address, A. T. Neill, President.

The Battle of Stoney Creek, J. H. Smith.

Notes on Some Recent Additions to Ontario Palæontology, Col. C. C. Grant.

Concrete Forms and Stratigraphy of the Spur Line Cutting, Hamilton, A. E. Walker.

Lake Medad and the Kwin hi-Bi-hah Collection of Indian Relics, Dr. J. A. Mc-

Gregor.

The members of the Biological Sections have devoted much time during the session to identifying and cataloguing the specimens in the museum, which shows that 120 species and varieties have been collected which hitherto had not been reported in this locality; two of these are new to America, a few new to Canada, and several new to Ontario.

The Geological Section has added a large number of local fossils to the museum, and the Photographic Section was successful in obtaining membership in the American Interchange.

The receipts, including \$400 Government grant, were \$774.55; expenditure, \$698.20; balance on hand, \$76.35.

2. *The Report of the Literary and Scientific Society of Ottawa for the year ending 30th of April, 1897*, shows that the total number of members is 325.

Lectures.

A joint lecture course was given in connection with the Ottawa Field Naturalist Club, as follows:

Conversazione—Exhibit of Microscopical Objects, with short addresses.

Electrical Discharges in High Vacua, Prof. John Cox.

Goethe, Prof. Leigh R. Gregor.

6. La Vie de Garcia Moreno, Jules Philon.
7. Les Salsifis. Le Cerole, Victor Hugo.
8. Mutual Benevolent Associations, F. R. Latchford.
9. Closing address, the President.

The reading room is well supplied with forty-two English and French newspapers and magazines.

The library contains 1,309 volumes, Canadian literature being specially well represented. 1,261 volumes were loaned during the year. The museum contains 778 specimens illustrative of numismatics, botany and mineralogy.

The receipts were \$1,500.93; expenditure, \$1,488.91; balance on hand, \$28.02.

4. *The Report of the Ottawa Field Naturalists' Club for the year ending the 30th of April, 1897*, shows that there are 248 members. Fourteen meetings of the Council were held during the year. At the first of these, leaders in the several branches, viz., geology, botany, entomology, ornithology, conchology and zoology, were appointed, besides an editor and associate editors for the publication of the *Ottawa Naturalist*.

The Club's work is divided as follows: Evening lectures given in conjunction with the Ottawa Literary and Scientific Society (see O. L. and S. S. report). 2. Field work. Three excursions were held for scientific work in the field, which were supplemented by sub-excursions on Saturday afternoons. 3. The publication of the *Ottawa Naturalist*, the official organ of the club and a medium for popular scientific instruction, and for interchange of notes on natural history, geology, etc. This journal is distributed to various societies throughout the Dominion and is mailed to a large number of foreign scientific societies.

The Club has in preparation an herbarium typical of the botany of this Province, which, when completed, will be handed over to the Ottawa Normal School for the use of the students, who are also welcome, free of charge, to the field excursions of the club.

The receipts were \$326.20; expenditure \$300.60; balance on hand \$25.60.

5. *The Report of the Canadian Institute for the year ending 30th of April, 1897*, shows that twenty-one ordinary meetings were held, at which papers were read on the following subjects, viz.:—Astronomy, Biology, Ethnology, Chemical Physics, Forestry, Geography, Geology, Literature, Meteorology, Metallurgy, Philology, Political Economy, Psychology, Botany, Physiology, etc.

Biological Section.

Ten papers were read as follows:—
